

Dear Guests,

here is a bit more detailed information regarding the construction of a new apartment building that is being built near our location.

- **Stage one** - the Earthworks will be completed by May 1, 2024.
- **Stage two** - the Rough Construction will begin after the completion of the stage one - The Earthworks and will be completed by December 1, 2024.
- **Stage three** - the Project Deadline for handing over the completed building was set for February 1, 2025.

We are fully aware of the fact, that the first two stages, i.e. EARTHWORKS and ROUGH CONSTRUCTION are the most harmful in terms of noise and dust...

In this regard, the investor has taken appropriate measures to try to mitigate the impact of unpleasant effects on the immediate surroundings.

All work will take place every day from 9:00 am and must be completed no later than 6:00 pm. Of course, there will be no work on holidays, Saturdays and Sundays!

Once again, we apologize for the inconvenience caused and warn you, that we are unable to influence it in any way!

We wish you a pleasant stay,
7Lizards Team
