

Dear Guests,

here is some important Information regarding the construction of a new apartment building that is being built near our location.

- **Stage one** - the Earthworks will be completed by May 1, 2024.
- **Stage two** - the Rough Construction will begin after the completion of the stage one - The Earthworks and will be completed by December 1, 2024.
- **Stage three** - the Project Deadline for handing over the completed building was set for February 1, 2026.

We are fully aware of the fact, that the first two stages, i.e. EARTHWORKS and ROUGH CONSTRUCTION are the most harmful in terms of noise and dust...

For this reason, the price of accommodation was reduced for bookings made after 13/05/2024 by 50% on promo price, starting from € 44,-- per night for two people. This SPECIAL OFFER will last during construction stages number I. and II.

All work will take place every day from 9:00 am and must be completed no later than 6:00 pm. Of course, there will be no work on holidays, Saturdays and Sundays!

During the ongoing construction works, our apartments are suitable for people who spend the whole day outside on the beach or exploring the island! There are beautiful sunrises and sunsets and the nights are very quiet!

Once again, we apologize for the inconvenience caused and warn you, that we are unable to influence it in any way!
